Dear Miss Dorothy;

I shall try to turn up at the Fagan rendezvous Sunday at 2 p.m. complete with a hogsheed or two of grape juice or pineapple juice and celery.

I must be back in Port Rowan at 7 p.m. however to take an essential part in the evening church service (in the choir). I had intended perhaps to stay over in Hamilton and shop for house wiring materials on the Monday, but when the minister heard of that he very generously offered to drive me down to Hamilton on the Monday for that purpose and to have a good visit with me, (which he'd not had time for previously).

I have a naughty idea that you should come back with me Sunday pm. and have an overnight visit with me and return to Hamilton on Monday. Then you could see the new "Bush House" I'm building, and experience the accommodation I can offer. Although my sleeping bag is plenty big enough for two, there are beds and mattresses etc for four or five double beds in storage in the new house (all piled up)!!! (for future little social crediters). However naughty the idea is; it is stuff for dreams, something I ask no one permission to indulge in, ---and then dreams, like prayers, are always answered, and may even come true..

Be seein' you, cheerio from;--
