Tue Nov 8/60

Dear Wesley,

I thought I'd better answer right away. I really do not think that I am the marrying kind, I just could not be persuaded in.

Anyway - this week - and we are having a professional and college institute and tonight is host to other branches.

Why not spend this coming week - and with Jesus in this church - known as the Reorganized Church of Jesus Christ of Latter Day Saints.

Lots of room to sleep. I quite busy cutting a program for Ward 4 to run as a Candidate that is if some considerable soul will nominate me.

Say a prayer for me, my father, friends, enemies and my program & that I could get someone to vote me in if it is Gods holy will.
Yours in Social Credit and in Jesus name. Dearly Loved

the whole wide world. Water is food, and pure food gives a healthy body and a pure and a healthy body promotes a clear mind. It is no wonder that the whole world is in such a bewildered state - because we are failing the God and Christ who created us in their own image. God said, "I am the Lord, I change not!" Jesus said, I am the same yesterday, today and forever. We must stop trying to make our heavenly Father and Jesus the Christ to go our way, but we must obey Christ who said "I am the Way, the Truth and the Life, my doctrine is not mine but Him who sent me.

Scripture says "if any man lack wisdom let him ask of God who giveth to all men liberally and upbraideth not and it shall be given him. It is time that those in high places repent of their wickedness. Jesus said "repent or perish".

It is time the people knew the truth - the whole truth and nothing but the truth, for the truth shall make us free. Jesus said "who shall save his life shall lose it and who shall lose it for my sake shall find it!

We should all strive together to climb that ladder to all righteous judgment. Let us be honest. Is this fluoridation issue for the sake of our Canadian children's teeth or for the promotion of the waste product of the Aluminum Company of Canada?

I beg every being - pray and repent or we shall surely perish.

Yours truly,

P.S. If fluoridation is so wonderful why are the doctors and dentists pressing for it and yet not pressing for state medicine and health insurance?
