

R R 1 Port Rowan Ontario,
28th May '61

Dear Alice;

-----and I find I can slip carbon and copy paper in behind a sheet very nicely without having to disturb the face sheet very much at all, at all.

Will you be at Home on Friday night coming, and on Saturday and Sunday, the 3rd and 4th of June???? Because that is the week end on which I'm planning to come up to Toronto for the one day Ontario S Cr Convention that is to be held in the King Edward Hotel on Saturday the 3rd. I shall have to "park" ⁿ Father some place for the time, and of course before and after the Convention, compare notes with you on matters of current interest. It may be that on Friday and Saturday evenings my S Cr friends in Toronto will want me to compare notes with them, but Father will be your guest.

Later plans may include the Leadership Convention in Ottawa on the week of the 5th to the 8th in Ottawa, and by then you will have finished your teaching schedule and perhaps would like to plan something for Father, even a trip up to Three Brothers Cottage, though probably you would dread piloting him on and off the motor boat for the trip across. However Father is not very very helpless, although very slow. He has been exercising quite regularly at the wheel barrow moving of earth over the ^{lake} weeks here. This is not so strenuous as it sounds, for three or four or less "little" barrow loads and hour are about his limit, and the remainder of the time goes to sitting on the barrow itself soaking up the sunshine, or at least the fresh air. So despite his complaints he is really quite well, barring the occasional "tummy ache" which he still refers to as his "groin pains" and moans about Dr Elliot having "cut him up".!! Several times recently Father has walked all the way to Port Rowan, (twice rather), one time having a passing acquaintance phone me up to come and get him, the other time returning with Mrs Gillard who happened to be in town. That time he had reached town by the lake road, about 3 miles rather than the $2\frac{1}{2}$ the other way. I tell him to hitch hike when ever he can, for the roads are fairly frequently travelled by local people and already he is likely better know than he imagines, as my Father However he hasn't had occasion for that very much as yet.
Since I'll likely see you so soon I'll sign off herewith.
